In Situ DNA Microarrays - 8x60K

1. Identification of the material and supplier

Names

- Product name** : In Situ DNA Microarrays - 8x60K
- Part No.** : G4102A, G4126A, G4450A, G4818A, G4822A, G4827A, G4831A, G4851-60510, G4851-60520, G4852-60510, G4853-60510, G4858A, G4859-60510, G4859-60520, G4863A, G4867A, G4870-60510, 4871A, G4872A, G4885A, G4898A, G4905A, G5937A, G5940A, G5940B, G5941A, G5940C, G5940D, G5941B, G5945B, G5955A
- ADG** : Not regulated as Dangerous Goods according to the ADG Code

Supplier

- Supplier/Manufacturer** : Agilent Technologies Australia Pty Ltd
679 Springvale Road
Mulgrave
Victoria 3170, Australia
1800 802 402

- Emergency telephone number** : CHEMTREC®: +(44)-870-8200418

Uses

- Area of application** : Industrial applications, Professional applications.
- Material uses** : Analytical chemistry.

G4102A	SurePrint G3 Custom GE 8x60K
G4126A	SurePrint G3 Custom CGH Microarray 8x60K
G4450A	SurePrint G3 Hmn CGH 8x60K Oligo Microarray Kit
G4818A	SurePrint G3 ChIP/CH3 8x60K Unrestricted Microarray
G4822A	SurePrint G3 ChIP/CH3 8X60K Custom Microarray
G4827A	SurePrint G3 Unrestricted CGH Microarray (8x60K)
G4831A	SurePrint G3 Custom Cyto Array 8x60K
G4851-60510	SurePrint G3 Human GE 8x60K Microarray Kit
G4851-60520	SurePrint G3 Human GE 8x60K V2 Microarray Kit
G4852-60510	SurePrint G3 Mouse GE 8x60K Microarray Kit
G4853-60510	SurePrint G3 Rat GE 8x60K Microarray Kit
G4858A	SurePrint G3 Unrestricted GE 8x60K
G4859-60510	SurePrint G3 Mouse v16 miRNA 8x60K Microarray Kit
G4859-60520	SurePrint G3 Mouse v17 miRNA 8x60K Microarray Kit
G4863A	SurePrint G3 Custom Exon 8x60K
G4867A	Custom Viral ID 70-mer Microarray 8X60K
G4870-60510	SurePrint G3 Human v16 miRNA 8x60K Microarray Kit
G4871A	SurePrint G3 Custom miRNA 8x60K
G4872A	SurePrint G3 Unrestricted miRNA 8x60K
G4885A	SurePrint G3 Custom CGH+SNP 8x60K
G4898A	SurePrint G3 BlueGnome CGH+SNP 8x60K (4SL)
G4905A	SurePrint G3 BlueGnome Cyto 8x60K (4SL)
G5937A	SurePrint G3 Custom OGT CGH Microarray 8x60K
G5940A	CGX™ 8x60K-042477, (2 slide pk)
G5940B	CGX™ 8x60K-042477, (4 slide pk)
G5941A	SurePrint G3 CGX 8 CGH 8x60K (3 slide pk)
G5940C	CGX v2, 8x60K (2 slides/pack)
G5940D	CGX v2, 8x60K (4 slides/pack)
G5941B	CGX 8 CGH v2, 8x60K
G5945B	CGX 8 CGH v2 Test Bundle
G5955A	SurePrint G3 ISCA CGH Array Kit, 8x60K

2 . Hazards identification

Classification	: Not regulated.
Risk phrases	: Not classified.
Safety phrases	: S53- Avoid exposure - obtain special instructions before use.
Statement of hazardous/ dangerous nature	: NON-HAZARDOUS SUBSTANCE. NON-DANGEROUS GOODS.

3 . Composition/information on ingredients

Mixture : Yes.

Ingredient name

No hazardous ingredient

Other ingredients, determined not to be hazardous according to Safe Work Australia criteria, and not dangerous according to the ADG Code, make up the product concentration to 100%.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

4 . First-aid measures

Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Skin contact	: Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.
Advice to doctor	: No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.

5 . Fire-fighting measures

Extinguishing media

Suitable	: Use an extinguishing agent suitable for the surrounding fire.
Not suitable	: None known.
Special exposure hazards	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. No specific fire or explosion hazard.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: metal oxide/oxides
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6 . Accidental release measures

Personal precautions	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment (see Section 8).
Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

6 . Accidental release measures

- Methods for cleaning up** : Move containers from spill area. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor.

7 . Handling and storage

- Handling** : Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.
- Storage** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

8 . Exposure controls/personal protection

- Occupational exposure limits** : **No exposure standard allocated.**
- Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required.
- Exposure controls**
- Engineering measures** : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.
- Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
- Eyes** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
- Hands** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
- Respiratory** : Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
- Skin** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

9 . Physical and chemical properties

Physical state	: Solid.
Colour	: Not available.
Odour	: Not available.
Boiling point	: Not available.
Melting point	: Not available.
Vapour pressure	: Not available.
Flash point	: Not available.
Flammable limits	: Not available.
Vapour density	: Not available.
pH	: Not available.
Auto-ignition temperature	: Not available.
Solubility	: Insoluble in the following materials: cold water and hot water.

10 . Stability and reactivity

Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Materials to avoid	: Reactive or incompatible with the following materials: oxidizing materials.
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11 . Toxicological information

Potential acute health effects

Inhalation	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Eye contact	: No known significant effects or critical hazards.

Acute toxicity

Conclusion/Summary	: Not available.
---------------------------	------------------

Potential chronic health effects

Irritation/Corrosion

Conclusion/Summary	: Not available.
---------------------------	------------------

Sensitiser

Conclusion/Summary	: Not available.
---------------------------	------------------

Chronic toxicity / Carcinogenicity / Mutagenicity / Teratogenicity / Reproductive toxicity

Not available.

Chronic effects	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

Over-exposure signs/symptoms

Inhalation	: No specific data.
Ingestion	: No specific data.
Skin	: No specific data.
Eyes	: No specific data.

12 . Ecological information

Ecotoxicity : No known significant effects or critical hazards.

Other ecological information

Other adverse effects : No known significant effects or critical hazards.

13 . Disposal considerations

Methods of disposal : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

14 . Transport information

Regulatory information

ADG / IMDG / IATA : Not regulated as Dangerous Goods according to the ADG Code .

15 . Regulatory information

Standard Uniform Schedule of Medicine and Poisons

Not regulated.

Control of Scheduled Carcinogenic Substances

<u>Ingredient name</u>	<u>Schedule</u>
No listed substance	

Australia inventory (AICS) : All components are listed or exempted.

16 . Other information

Date of issue : 07/08/2013

Date of previous issue : 07/06/2013.

✔ Indicates information that has changed from previously issued version.
